Happy Holiday Season and a Happy New Year to you and your family from the Dallas County Elections Department!
In the month of September, we observed Voter Registration Awareness Month in Dallas County. We collaborated with various local organizations, cities, ISDs, and dedicated VDRs throughout the county to organize voter registration drives and events. We extend our heartfelt gratitude to all those who actively participated in these efforts.

For the voter registration deadline we also joined forces with the offices of all four commissioner districts to orchestrate Drive-Thru voter registration drives. We want to express our sincere appreciation to everyone who joined us and shared in the experience of registering individuals to vote, even at the last minute, bringing joy to this significant endeavor.

As we gear up for the upcoming presidential year, I'd like to bring your attention to some important aspects related to the applications we’ve received for the 23-24 cycle. Remember it is your responsibility as a Certified VDR to review every application in front of the applicant. If anything is not completed or legible you must return to applicant for resubmission.

It's crucial for us to ensure that our voter registration applications are processed accurately, and to that end, I'd like to highlight a few areas where we need to make improvements in our application review process. Below is a list of common issues that we've identified and can collectively work on addressing:

- **Section 1** - Yes and No Questions are being left blank
- **Section 3** - Residence Addresses are left blank, Please make sure there is a residence address in every application you assist with.
- **Section 9** - No Driver License or last 4 of Social, are being left out

Remember, our community is depending on you to register them to vote, and if we do not have accurate information they will not be able to exercise their right to be eligible to vote in the upcoming election.
